Stuart,

I assume you let Les know this.

Therese,

Then, it's your call: How do you wish me to proceed? Shall we talk to Mark?

DL

Stuart Rice

Actually, we don't have any legal things going. I think that when we adopt the provisions of HB 2030, we are not going to do exactly what they have directed and see if anyone challenges what we do. Most of the main items will be adopted. But if any legal challenges come we want them coming from the other side. Hope this helps. I'm not going to get around to working on the model ordinance update until after I get back from vacation. So it will probably be early September before I get anything out to everyone.
